

## JOB OBJECTIVE

To pursue a challenging position as a Software Engineer, emphasizing expertise in backend development and a commitment to delivering impactful solutions in fast-paced environments.

## EDUCATION

- Bachelor of Engineering (B.E.)**  
SND College of Engineering, Yeola  
Dec 2021 – Jun 2025 | CGPA: 7.00
- Higher Secondary Certificate (HSC)**  
K.B. Rohamare College, Jawalke  
Jun 2019 – Jun 2021 | Percentage: 85%
- Secondary School Certificate (SSC)**  
Shetkari Madhyamik Vidhyalay, Jawalke  
Jun 2018 – Jun 2019 | Percentage: 76.6%

## IT SKILLS

- Programming Languages:** Java, Python, JavaScript
- Frontend:** HTML, CSS, React.js
- Backend:** Node.js, Express.js
- Database Management:** MongoDB, SQL
- UI & Styling Frameworks:** Bootstrap, Tailwind CSS
- Tools & Platforms:** Git, RESTful APIs, VS Code
- Soft Skills:** Communication, Decision Making, Problem solving, Multi-tasking, Observation

## ACADEMIC ACHIEVEMENTS

- Received Best Innovation Award** for designing a **low-cost IoT system for smart agriculture** in an inter-college competition.
- Microservices Architecture Awarded Best Project** in final year for designing a **cloud-based file-sharing platform** with secure logic and encryption features.

## PERSONAL DETAILS

**Address:** Kopergaon Dist Ahmednagar, MH  
**Date of Birth:** 25th May 2003  
**Languages Known:** English, Hindi, Marathi

## PROFILE SUMMARY

- Enthusiastic **Full Stack Web Developer** with hands-on experience in building responsive, scalable, and secure web applications through academic projects and internships.
- Developed and implemented full-stack solutions using **HTML, CSS, JavaScript, React.js, Node.js, Express.js, and MongoDB**, demonstrating a strong technical foundation.
- Gained practical knowledge of **RESTful API development, version control (Git), and database design**, ensuring seamless integration and efficient functionality.
- Applied problem-solving skills and attention to detail in designing **efficient algorithms and clean code**, optimizing performance in web applications.
- Demonstrated strong collaboration and communication skills by **working in team-based projects and internships**, contributing to innovative solutions and continuous learning.
- Recognized for **achievements in academic and inter-college competitions**, reflecting initiative, creativity, and technical excellence.

## INTERNSHIP

### Cyphers as a Web Development Intern

05/2025

- Designed and implemented** interactive user interfaces with React.js, improving client-side performance and enhancing user engagement.
- Led the development** of responsive web applications using HTML, CSS, JavaScript, and Bootstrap, ensuring cross-browser compatibility and an optimized user experience.
- Developed full-stack functionality** using Node.js, Express.js, and MongoDB, creating end-to-end solutions for web projects.
- Integrated frontend and backend** components in MERN stack projects, enabling efficient data handling and dynamic content rendering.
- Optimized application performance** by reducing load times, achieving a measurable improvement in website speed and responsiveness.
- Collaborated with peers in team-based** projects, defining architecture, troubleshooting issues, and ensuring timely delivery of features.
- Applied best practices in RESTful API** development, version control (Git), and database management, ensuring maintainable and scalable solutions.

## PROJECT

### Meal Management System

- Developed a Front-end Meal Management System with React.js frontend with Bootstrap styling and Font awesome icons.
- Engineered core modules for meal tracking, payment processing, admin controls, and sales management, ensuring seamless user experience and operational efficiency.
- Designed responsive UI components** in React.js for real-time meal updates, payment status, and admin dashboards.

### MediStock Pro – Pharmacy Inventory & Billing Management System

9/2025 – 11/2025

- Built a full-stack pharmacy management system using **React, Node.js, Express, and Supabase** for inventory, billing (POS), and reporting.
- Implemented JWT authentication**, role-based access control, and secure **REST APIs** with proper validation and error handling.
